

Immigration Attorney Moose Jaw Saskatchewan

Immigration Attorney Moose Jaw Saskatchewan - There is an increasing concern about lots of privacy matters these days and the complexity of new privacy legislation. The individuals working in the field, plus the organizations involved in information technology and biotechnology have unique legal needs. So do people who rely on technology to secure a competitive advantage for their company, or just to be able to function in everyday operations. Our Technology, Privacy and Intellectual Property lawyers assist clients in maximizing the use of intellectual property in their business operations. Our objective is to be able to create value for our clients.

We offer a lot of services which handle privacy technology, biotechnology, intellectual property on an international and domestic basis. The assistance that we offer to our clients include copyright, trade-marks, commercialization, privacy, domain names, e-commerce, intellectual property, information technology and operational issues.

Intellectual Property Services:

- Copyright
- Industrial Designs
- Licensing
- Trade Secrets
- Trade-marks

On a regional, national and international scale, we can help in obtaining, maintaining and enforcing intellectual property rights. We help clients in the entertainment, automotive, manufacturing and telecommunications sectors.

Technology Services:

- e-commerce initiatives
- protection, development, licensing, distribution and sale of technology
- acquisition of technology

We advise venture capitalists and financial institutions in structuring loan transactions to both suppliers and users of technology. We also advise companies concerning confidentiality agreements, computer system and Internet usage policies, outsourcing arrangements, consulting agreements, source code escrow, employment agreements, joint ventures and strategic alliances.

Privacy Services:

To ensure compliance with privacy legislation, we assist many organizations, employees, suppliers and contractors. We are able to assist numerous companies with their personal information management systems: crafting privacy and policy procedures, advising with respect to use, collection and disclosure of personal information. We assess Privacy Impact for clients' organizations or businesses.
