

Patent Lawyer Moose Jaw Saskatchewan

Patent Lawyer Moose Jaw Saskatchewan - The lawyers within our office are focused on intellectual property rights. Our company fully understands that many companies view their intellectual property as a very important asset. To attract and maintain market share, intellectual property is key. It defines your business in the market place, whether by way of patents which exclude competitors, trademarks which identify your products, or copyright which prevents illegal replication of your intellectual assets.

We have years of knowledge in practical management and the effective resolution of intellectual property disputes at all levels of the courts. Our clients consist of a wide range of trades, from start-ups to worldwide corporations.

The primary considerations that our companies believe must be the client's goals and what is sensible to them from a business point of view. Every infringement on intellectual property rights will not in all instances warrant a court action. Intellectual property litigation is expensive due to the complexity of detailed analysis of rights and utilizing right professionals. Where infringement disputes are straight-forward and simple, disputes normally can be resolved through negotiated agreements along with built in deterrence terms. In situations where court action is necessary, we utilize strategies that are compatible with a business-oriented method.

Our office and its lawyers are extremely skilled and experienced in representing our clients in claims of intellectual property infringement. Our well-known litigators have the experience to communicate to the courts the technical issues involved, whether you need defending against allegations of intellectual property infringement, or you are an owner of intellectual property pursuing infringers. We give legal advice and representation in disputes related to copyright, patents, trademarks, industrial design, trade secrets, domain names, interlocutory injunctions ("emergency" relief from infringement awaiting trial) and Anton Pillar Orders (civil search and seizure orders).
