We have a wide array of service areas that help to compliment our private equity team. To offer successful private equity investments and management of portfolio businesses, we have gained extensive experience to provide our private equity clients with banking, capital markets, antitrust, mergers and acquisitions, tax, intellectual property, real estate, pensions and benefits, environmental, corporate governance, employment and labour, insolvency and restructuring.

In the private equity market, we have built contacts and relationships along with Canadian, American, and worldwide clients. The depth and strength of our close working relationships with private companies and public companies, pension funds, institutional investors, leading private equity firms, venture capital firms, financial institutions, and entrepreneurs allow us to foresee opportunities and connect our clientele to each other for their mutual benefit. Our private equity clients benefit from the sources of debt financing with which we could connect them. Whenever our clients like to buy or sell businesses, we can introduce them to prospective buyers or sellers.

We are often called upon by the lead counsel in foreign transactions to offer domestic legal suggestion and help with transaction execution. We often collaborate along with worldwide law companies in cross-border private equity transactions which otherwise have international components. In foreign or overseas transactions, we work with top foreign law firms to obtain recommendation on foreign legal considerations.
