

Best Family Lawyer Moose Jaw Saskatchewan

Best Family Lawyer Moose Jaw Saskatchewan - When there is a loss of inheritance which is caused by the victimization of an elderly, vulnerable person, our office could be of assistance. Due to their heavy reliance on other people, the elderly are more susceptible to being fooled into changing their wills, making gifts, or getting married to caregivers. Whenever this happens, our company can help dispute the changes done to the will.

In cases where a member of a family could no longer comprehend how to maintain their health or manage their accounts, we help the family get the powers of attorney through court.

If somebody becomes incapable, we follow the procedures and laws under The Substitute Decisions Act. We apply to court to allow the appointment of our client as statutory guardian of the indisposed person. Then, the elderly person has the comfort of knowing that their property, personal care and finances are being taken care of by the appointed family member.
